Mondays, 2:45 - 4:15 pm
\$224, 8 sessions: 3/27 - 5/22, no lab 4/10
OR
Wednesdays, 2:45 - 4:15 pm
\$224, 8 sessions: 3/29 - 5/24, no lab 4/12
- **Register online now at www.wizbots.com**

Wizbots is THE best place to learn the art & science of building robots!

With no prerequisites, Wizbots is the perfect place for novices to first learn about robotics. Equally, students can spend years with us and reach such advanced challenges as robot navigation and proportional-integral-derivative control.

BUILD. Use **LEGO® MINDSTORMS®**, lots of advanced robotics equipment, and unique building materials.

CODE. Program your robots in **Java**, one of the world's most popular and powerful programming languages.

PLAY. Come play our **Path to Mastery Game** which is all about fun and creativity! Journey from Novice to Master tackling new project challenges with each move. You'll learn engineering, math, physics, and programming in a completely hands-on way. The journey is deep, so you can join us season after season and always try something new!

Hey Parents, you get to see all the fun too as your child's project videos are posted online for you to see and share!

After School Programs - Summer Camps - Birthday Parties
